Summary

ShreePrasad Das, an intern, is proficient in web development using Node.js, Express.js, MongoDB, MySQL, HTML, JavaScript, CSS, PHP, and Python. He also has experience in SQL, .NET, JAVA, and other tools. ShreePrasad is skilled in designing and maintaining applications, particularly those related to contracts and compliance.

Objective

Seeking an internship opportunity in web development where I can leverage my proficiency in Node.js, Express.js, MongoDB, MySQL, HTML, JavaScript, CSS, PHP, and Python, along with my experience in SQL, .NET, and JAVA. Eager to apply my skills in designing and maintaining applications, with a focus on contracts and compliance, to contribute effectively to organizational success while gaining valuable experience and furthering my professional growth.

Projects

School Management System (Backend):

- Developed the backend system for a school management application.
- Implemented features for managing student records, teacher information, attendance, and grades.
- Utilized technologies such as Node.js, Express.js, and MongoDB for database management and API development.

Portfolio Website:

- Designed and developed a personal portfolio website to showcase projects, skills, and professional experience.
- Created an aesthetically pleasing layout with smooth navigation and interactive elements.
- Employed HTML, CSS, JavaScript, and possibly additional libraries or frameworks for enhanced functionality and visual appeal.

Frontend of Shopping Website:

- Developed the frontend layout and user interface for a shopping website.
- Implemented features such as product listings, search functionality, shopping cart, and checkout process.
- Utilized HTML, CSS, and JavaScript for responsive and dynamic design.

Simple Static School Webpage

- Created a static webpage for a school using HTML, CSS, and JavaScript.
- Designed an intuitive and visually appealing interface showcasing school information, events, and contact details.
- Implemented responsive design principles to ensure compatibility across various devices.
